SMART OFFERINGS

You work in unpredictable challenging environments and sometimes things don't go as planned. That's when it's good to know that we've got your back. With our comprehensive support and local service and repair network, you can trust us to keep downtime to a minimum.

When ordering portable or mobile X-ray equipment from COMET, you can complement your new system with our SMART Offerings to experience an even

smoother workflow and operational excellence when performing your inspection jobs.

SMART Offerings include three different comprehensive packages: SMART Service, SMART Solutions, and SMART Accessories. All of them are designed to enhance your planning and make your job easier.

SMART SOLUTIONS

It's a competitive market and even the smallest advantages can prove to be the tipping point in hard fought tenders. As the leading global provider of X-ray inspection equipment for industrial applications, we have the right solution to match nearly every application.

To further strengthen your position, we have designed three initiatives that we trust will support your business and provide you with better customer service.

We have alleviated cash flow issues by creating a rental program, offering you the option of renting our portable X-ray systems.

An increased warranty period will help you avoid unexpected extra costs in case repairs are required.

An exchange program will make fleet modernizing even more attractive.

COMET

Technology with Passion

EXTENDED WARRANTY

In addition to COMET's 12-month standard product warranty, described in our "General Conditions of Sale and Delivery", an extended 12-month or 24-month full product warranty is available at the time of purchase for portable and mobile X-ray systems of all variants.

This option will add to the overall level of customer comfort by eliminating unexpected extra costs in case of product downtime.

Additionally, specific terms and pricing regarding a customized product warranty is available for OEM customers. Please contact the COMET sales team to discuss your specific requirements.

RENTAL PROGRAM

Customers have the opportunity to rent portable X-ray systems from COMET, with a signed rental agreement, including a specified time frame, terms, and price.

Available are both directional and panoramic X-ray systems in different kV variants, highly suitable for your next specific inspection job.

This tailor-made rental program is especially attractive for you; in periods with peaks, when you have inspection jobs requiring systems for a limited time, or when you want to test our portable X-ray systems.

EXCHANGE PROGRAM

Customers with functional old-styled PXS equipment, have the opportunity to return the equipment to COMET as a part of an exchange program, where a specified amount will be deducted from the customer's new equipment purchased from COMET in exchange for the trade-in.

One used old-styled PXS system can be traded in when purchasing a new system.

By participating in this program, you will be able to upgrade your fleet to the superior PXS EVO series, making X-ray inspection more efficient, faster, and more accurate.

COMET offers pre-owned equipment for purchase in specific regions, including a three-month product warranty.
